Ms Hornbein: Re Green Cove Park
Project
Based on the findings of Robinson Noble Tech. Memo, we ask that
the City return the application to the
developer as incomplete. There was
no sediment sampling to look for
hazardous chemicals in the soil
or groundwater. The City & County's own
Green Cove Creek Comp. Plan stating the
entire area is environmentally sensi-
tive was not considered. The City will
be potentially liable for serious health
& infrastructure issues. Thank you
Barbara Buchan

Ms. Cari — Re: Green Cove Proj. 8/6/19
Based on the findings of the
Robinson Noble Technical Memo:
More testing must be done!
currently we don't know enough
about hazardous chemicals in
the soil or groundwater. This
area is environmentally sensitive
and must be considered before
any development is considered. Please
help! Carol Goss

Dear Cari Hornbein-

The League of Women Voters asks the city to return as incomplete the Robinson Noble Technical Memo as incomplete.

The city and county's own Green Cove Creek Camp Plan states the area is environmentally sensitive. Please consider

this!

Dear Ms Hornbein
Re: Green Cove Park Project
Based upon the findings of the Robinson Noble Tech
Memorandum we ask the city return the
application to the developer as incomplete
We need - sediment sampling to look for wood treating
compounds + other hazardous chemicals
This area is entirely environmentally sensitive
The city should ~~be~~ avoid being liable for serious
+ infrastructure issues! Karon Verrill

Dear Cari,

We feel the application for
the Green Cove Creek ~~has been~~^{is}
incomplete & that it should
be returned to the developer.
More sampling for soil & ground
water pollution is necessary as was
mandated in the City & County's Green Cove Creek
Comprehensive Plan. Please take action!

Re: Green Cove Park Project 8/6/2019
Mr. Hornberr is strongly urge that the City
return the developer's application for this project
as incomplete. Sediment sampling for
hazardous chemicals was not carried out, &
the County & City designation of the area as
environmentally sensitive was not con-
sidered. The City will bear responsibility
for health consequences & other damages.
Please do not accept this application
until & unless these matters are adequately
addressed. With respect,
Peggy Buntan

City of Olympia,

I just became aware of the Green Cove project number 19 - 03330 which will develop 181 houses on 50 acres. I live at 3422 French Loop NW along Butler Creek. I understand that this development could affect the watershed for Butler Creek. It is important that there will be no effect to the watershed for Butler Creek as this is a salmon habitat stream. I myself witnessed salmon thrashing in the pools of water last fall when I was looking at the creek and doing my walk.

Please send me all reports regarding the determination of no effects to watersheds and add my name to your mailing lists regarding any projects that could potentially affect my property, the artesian well and Butler Creek. Please send links to reports to this email address: carolagt@ak.net

Thank you for your consideration,

Carol A Goularte
