

Neighborhood Sewer Extension List

FEBRUARY 2019

The projects below are being considered for Olympia’s Neighborhood Sewer Extension program. The list will be updated at least twice a year, in January and September. One or two projects will be constructed each year. The projects are prioritized based on environmental considerations such as potential contamination of groundwater or surface water, cost of construction and interest in sewer connection. Visit olympiawa.gov/septicsewer to learn more about Olympia’s Septic to Sewer Program.

Potential Projects (in tentative priority order):

	<u>Project Name/Location</u>	<u>Cross Street(s) or Block Number(s)</u>
