

Pressure Reducing Valve (PRV) Rebate Program

PRV rebates cover up to 50 percent of the installed cost at your residence (maximum of \$125). Limit one per household. This rebate is offered only to City of Olympia water customers in areas where water pressure is above 80 psi, based on the Uniform Plumbing Code 608.2. The PRV must be installed by a licensed plumber between your original meter/valve box and your home, and it must have a shut-off valve.

Customers must consider carefully any recommendations about changing the water pressure inside the home. City of Olympia is not responsible for any problems that might occur with reducing the water pressure. Replacement, repair, or maintenance of the PRV is the property owner's responsibility.

Name: _____ Service Address: _____

Mailing Address: _____ Phone: _____

Along with this rebate form, you **must** attach the original dated sales receipt and labor invoice, specifically itemizing the product purchased and work performed, in order to receive this rebate. If approved, you will receive your rebate check within thirty (30) days.

Please read and sign:

I, the undersigned, understand that this is a limited program subject to availability of funds, that I must submit this form by December 31, 2021. I understand that it is my responsibility to coordinate with a licensed plumber for the PRV installation and to obtain verification from a licensed plumber that my water pressure is set at 80 psi or below after PRV installation. Such verification shall be submitted to the City. City of Olympia does not warranty contractor work or guarantee that the device will work as advertised.

I understand that the City of Olympia reserves the right to deny any rebate application if the applicant does not comply with program qualifications, procedures, and specifications.

I have read, understand, and agree to the terms and conditions of this rebate program.
